"Precision in engineering, reliability in operation – tailored test and measurement solutions for mission-critical requirements."

KEY QUALIFICATIONS & CORE COMPETENCIES:

- **Defense & Operational Expertise:** Former member of the German Special Forces Command (KSK), with hands-on operational experience in establishing and managing critical field infrastructure (comms, power, logistics) under high-stakes conditions.
- **Deep Industry Know-How:** Over 25 years of proven track record within the Defense, Communications Electronics, and Automotive sectors.
- **Technological Excellence:** Qualified Engineer with extensive experience across R&D, service, sales, and executive management at global T&M market leaders (including Rohde & Schwarz, Keysight, Tektronix, and Fluke).
- **Intercultural Leadership:** Comprehensive international experience and deep cultural understanding gained from living and working in the USA, Japan, South Korea, and Indonesia.
- **Crisis-Tested Resilience:** Strong customer focus and a proven ability to deliver creative problem-solving under extreme pressure (honed through executive roles and a background as a champion athlete in the German Premier Boxing League).

PROFESSIONAL BIOGRAPHY:

As Managing Director of imc Test & Measurement GmbH, Frank Mayer combines top-tier technological expertise with firsthand operational experience. Having served with the KSK, he uniquely understands the uncompromising demands defense clients place on equipment reliability, secure communications, and tactical readiness.

Throughout his 25+ year career in the test and measurement industry, Mr. Mayer has successfully driven results across all value-creation stages—from hands-on engineering to executive boardrooms of global key players. He is recognized as a strategic leader who delivers pragmatic, customer-centric solutions even in high-pressure situations. His international background in the US and Asia, combined with the discipline of elite competitive sports, shapes his goal-oriented and highly collaborative leadership style.
